Subject: Official Enrollment Report, Spring 2001, First Day of Session

Date: May 10, 2001

Attached you will find three reports that contain data related to: 1) the number of student credit hours; 2) total student headcount and 3) the number of credits per student for the First Day of Session, Spring 2001. The third report has been added to provide you with a clearer picture of the relationship between the total student headcount and the total number of credit hours. These reports can be summarized with the following main points:

- The total number of student credit hours were 2% above the projections and equates to a 7.3% increase from the previous year at the same point in time.
- The college has seen a 6.5% increase in the total student headcount when compared to the previous year.
- Every year since 1995, the number of credit hours per student has been steadily increasing. Thus, smaller numbers of OCC students are taking more credit hours.

I welcome any questions and/or concerns you might have regarding this report. Please do not hesitate to call me at 3883.

Subject: Southfield's non-credit

Laurie --

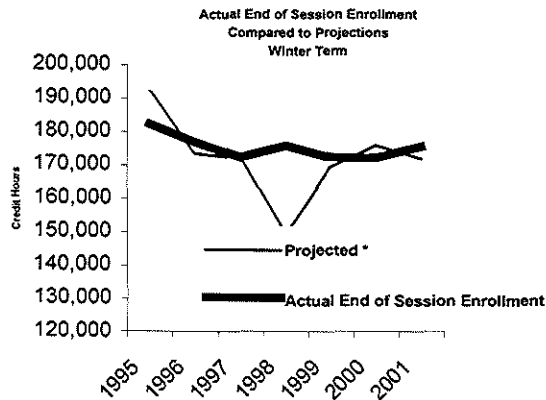

There is an explanation. (You might want to print this and include it with documentation). Re: the spike in non-credit hours for **Southfield, Winter 1997**. The Campus President's Secretary called the Continuing Education Coordinator from that time. The Continuing Education Coordinator explained that there was a high enrollment in that time in ESL Bridge courses (which are not offered for credit), and a non-credit mammography course. So, we don't need to change the number or have ITS rerun the program.

Eileen

Summary

Credit hours, as of the One Tenth Day of the Spring 2001 session, are at 98.7% of projections.
 In comparison to the One Tenth Day of the Spring 2000 session, credit hours are up 6.2%.
 The five year percentage of change is up 3.8%.

Student headcount for the One Tenth Day of Session, Spring 2001 decreased 4.4% from the One Tenth Day of Session, 2000.

The five year change shows a 7.7% decrease from One Tenth Day of Session, 1997.

The credit hour totals and headcount totals have fluctuated up and down over the 10 year period but note, the average ratio of credit hours per student has steadily increased.
